He had been sick for nearly two years, his trouble being a complication of diseases. The funeral will be held this afternoon in charge of the North Platte fire department, of which he was an honorary member, having served his term. —Dr. F. M. Somers left this morning for Omaha where he will remain for a time prior to locating in Colorado. THE TRIBUNE wishes him success in the sixteen to one silver state. —Judge S. M. Knox, of Princeton, Ill., who owns several hundreds of acres of land in this county, spent a day in town this week. If old Jupiter Pluvius gets in his work regularly the corn crop of the county will be enormous. —An "alfalfa palace" will be one of the attractions at the state fair this fall, and Lincoln county, which has perhaps a larger acreage of this plant than any other county in the state, will be called upon to furnish a liberal quantity. —While in Kearney this week attending the A. If these organizations are completed they will irrigate about 30,000 acres of good soil. The one at the west end of the county, in which the people of Vail precinct are mostly interested, will contain the broadest and most beautiful portion of the South Platte valley. It may be proposed to build two ditches in this one district, the better to water the whole body of land. If two ditches are built, one will begin in Deuel county and the other perhaps about five or six miles east of the Big Spring bridge. The other district will be started nearly north of the McKee farm. The continued dry weather is likely to cause rapid organization of these districts.—Keith Co. News. —The meeting held Tuesday evening last for the formation of a musical association was attended by about forty persons who evinced much enthusiasm on the matter. A committee of five was appointed to draft constitution and by-laws and this committee will report at the next meeting. An orchestra of seven pieces has been organized and will work jointly with the association. North Platte people should congratulate themselves on the formation of this association, as it means that in the future there will be some excellent musical entertainments. The business to which Mr. Meyer will give his principal time and attention is the manufacture of pumps especially adapted for irrigating purposes, but will, however, continue to do all kinds of repair work. In this enterprise Mr. Meyer is investing considerable money, and we trust the venture will prove a profitable one. With the increased facilities and a good run of business, Mr. Meyer expects to give employment to several additional workmen. —Editor Galvin, of the Big Springs Gazette, spent a day or two in town the early part of the week. Mr. Galvin was postmaster at Big Springs and unfortunately for him an inspector visited the office one day and found him short in his cash account with the government. The inspector reported the short-coming to the proper officials and Galvin was indicted by the grand jury at Omaha last week. While in town Galvin hourly expected a deputy marshal to pounce upon him and lug him off to Omaha. The shortage, which was about \$250, has been made good by him. He is a highly educated man, having attended Yale college for several years, and we believe at that time was preparing himself for some Catholic priesthood, but for some reason decided to pursue other vocations.

SECTION 2034. Mr. Belton's idea of running water down the streets of the city, thereby killing two birds with one stone; beautifying our city and rendering us to some extent independent of the water works company, is a good one, but—No tract of land shall be crossed by more than one ditch, canal or lateral, without the written consent of the owner thereof, if the first ditch, canal or lateral can be made to answer the purpose for which the second is desired and intended. A very warm friend (?) of Mr. Belton's has already constructed such a ditch, diagonally from the railroad to a point below the town, which can be made to answer the purpose of Mr. Belton's ditch. We imagine how anxious the owner will be to second the efforts of Mr. Belton in any scheme for which the latter would receive great public praise, and how is he to be compelled to do so? As Mr. Belton is a strong advocate of the justness of section 2034, we shall watch with much interest the solution of this question, while the public welfare is ground to insignificance between the two giants.
